Vatsal Negi

Business Analyst

9528618806 vatsalnegi412@gmail.com Moradabad, Uttar Pradesh, India LinkedIn GitHub

Smart India Hackathon 2025 Finalist and MCA (Data Science & Analytics) student with expertise in business analysis, requirements gathering, stakeholder communication, and KPI reporting. Experienced in performing gap analysis, business process analysis, and translating business requirements into data-driven solutions using SQL, Excel, and Power BI. Skilled in documentation, data validation, and performance metric reporting to support strategic decision-making.

Core Competencies

Business Analysis: Requirements Gathering, BRD Documentation, Functional Specifications, Stakeholder Management, Gap Analysis, Business Process Analysis, KPI Definition
Reporting & Tools: SQL, Excel (Pivot Tables, XLOOKUP), Power BI, Dashboard Development, Performance Metrics Reporting
Data & Analytics: Data Cleaning, Data Validation, EDA, Statistical Analysis, Reporting Automation
Databases: PostgreSQL, MySQL, Relational Databases

Education

- **Teerthanker Mahaveer University** 2024 – 2026
  Master of Computer Applications (Data Science & Analytics) *CGPA: 9.6*

Projects

- **AI Data Analyst Web Application | Live | GitHub** 2026
  - Developed analytics platform enabling CSV upload, automated statistical summaries, and dashboard-based KPI visualization for decision-making support.
  - Performed data analysis and generated business insights to improve reporting accuracy and performance tracking.
- **GitPro – GitHub Analytics Platform | Live | GitHub** 2026
  - Analyzed GitHub API data to evaluate repository performance, contribution trends, and developer productivity metrics.
  - Created interactive dashboards to present language distribution and contribution insights for strategic evaluation.
- **CareerSphereAI 2.0 | Live | GitHub** 2026
  - Translated career readiness requirements into structured analytical workflows and reporting dashboards.
  - Designed data-driven insights to support career planning and performance assessment decisions.
- **AI Daily Knowledge Capsule | Live | GitHub** 2026
  - Built analytics-driven micro-learning platform tracking engagement metrics and user interaction insights.
  - Analyzed behavioral data to optimize content effectiveness and user retention.

Experience

- **Python Intern** 2025
  Nainital Institute of Technology *Remote*
  - Automated data processing, validation, and reporting workflows using Python to improve KPI tracking and business reporting efficiency.
  - Collaborated with stakeholders to understand reporting requirements and deliver structured data insights.
- **Web Development Intern** 2025
  Anonic Technologies *Roorkee*
  - Developed backend-integrated web applications and supported database-driven reporting solutions.
  - Collaborated with team members to translate business requirements into functional implementations.

Certifications

- IBM – Data Analysis with Python
- IBM – Deep Learning with TensorFlow
- Tata iQ – Data Analytics Simulation
- Python Programming – MSME Certified
- Outskill – Generative AI Mastermind Program
